

Intralox

PRODUCT HIGHLIGHT
Modular Plastic Conveyor Belts

New EZ Retrofit Radius Components make radius roller retrofits easier than ever.

Intralox's new EZ Retrofit Radius components further simplify the retrofit of problematic roller conveyors.

If you're tired of dealing with the high maintenance, unexpected down time, noise, and other problems associated with roller conveyors, you'll be glad to know that Intralox has simplified the retrofit process for using modular plastic belts. Many of you find the idea of retrofitting roller conveyors to modular plastic belts to be a practical solution to your roller conveyor problems. **Now you can with the EZ Retrofit Radius Snap-on Carryway!** Enables you to quickly and easily perform your roller retrofit.

- Works with Intralox Series 2200 and Series 2400 radius belts to provide a complete "one belt" conveyor system.
- Each uniblend UHMW EZ Retrofit Carryway/ Returnway is custom-built to match your turn angle, inside frame width, inside frame radius, belt series, and belt width.
- Connects to the straight sections on each side of the turn using the EZ Retrofit Snap-on Component.

Information Necessary to Design Radius Carryway & Returnway Component

Turn Angle _____

Between Frame Width _____

Inside Frame Radius _____

Nominal Belt Width _____

Belt Series: 2200* 2400*

Belt Material: Polyethylene
 Polypropylene
 Acetal
 Flame Retardant (S2400 only)

*Radius Carryway is not available for use with the Series 2200 tabbed edge or the Series 2400 with hold down guides.
